I want to love this game SO BAD - the aesthetics & game mechanics are awesome & it looks so good in VR. However, the camera controls make this basically unplayable for me. I just about lost my mind trying to get my "block" island to be on a level plane & ended up with it floating upside down over my head a few times. It really needs some easily accessible auto snapping / camera reset options - once that's addressed, it'll be awesome!. This game is absolute RUBBISH. I wouldn't recommend it to anyone. If you want a good fishing game, Buy Euro Fishing, thru Steam.. I had a ton of fun playing this game. It's a party-based RPG and it's really enjoyable. The world is pretty huge as well. Should provide tens of hours on fun. 8/10. 11/10 would create moar texture and shaders from this magic software

Awesomeness!!!! The person who made this is an angel!! WOHOOO!!!!!! The game's fun for like 5 minutes until the gameplay gets old. Idk why I'm leaving a positive review.. Out of the 5 games in this, there is only one I've disliked. Roguelight is a fun and clever little Roguelike with a light and dark mechanic, hets is a really fun and fast-paced action game, Test Chamber is a cute and interesting puzzle game, and Detective Chirpums is a cute little noir-style adventure game. The only game I disliked was Laza Knitez, which I felt was sorta slow and poorly made. Overall, though, a really great package that is absolutely worth the price.. 11/10 i finnaly went to hell

While the idea behind this game is quite appealing, the game itself is repetitive and boring.. Great  
game to play i recommend this. If you loved the boys, you will love this Drama CD just as much.

The VAs did such a great job, I fell in love with the boys all over again. Now I carry them along on my MP3 all the time. There were also interviews of the VAs and some Bloopers, which made me laugh very hard. The price seems more than fair for me, too, considering the first VN is free!. most awesome. four muted colors changable and available. great detail. well worth the price to me. this is a very early car -- 1914 - and looks transitional because it was just that. could maybe use some weathering variables too, since it's going to look pretty used by 1930 -- stopped building them, i think they said, in 1917.

naturally, i'd also really like to see an x31 roundtop, of course. for a westcoast boy growing up next to the s.p. the prr x31's were as exotic as heck.. Very nice and beautiful game, and I have not seen any prompt. Gameplay is fluent and instinctive.
